Contract Award

SUMMIT ENVIRONMENTAL CONTRACTORS WINS CONTRACT WITH AMES CONSTRUCTION FOR THE BNSF RAILWAY COMPANY

For San Bernardino Intermodal Facility, – San Bernardino, California

Summit Environmental Contractors (SEC) will provide profiling, removal and transportation for 700 tons of hazardous material for BNSF Railway Company. This contract is awarded by Ames Construction for the Pit Property Development Project and San Bernardino Intermodal Facility, in San Bernardino, California.

The removal of the contaminated soil is in preparation for a new six span overhead bridge between Lot 5 and the recently developed Pit Property at the Intermodal Facility. BNSF is the largest intermodal railroad covering more than 32,500 miles. These tracks play a vital role in building and sustaining the nation's economy being one of the top transporters of consumer goods, grain and agricultural products, low-sulfur coal, and industrial goods such as petroleum, chemicals, housing materials, food and beverages

In addition to the removal of hazardous material, Summit will also be providing safety plans, air monitoring, and project management to ensure the safety of workers and surrounding communities.

Ames Construction is an award winning full-service, heavy civil and industrial general contractor. This year Ames received the 2022 People's Choice Award and Grand Award from ACEC of Minnesota for the Minnesota River Bridge Design-Build project. In 2021 Ames received the American Public Works Association's (APWA) Public Works Projects of the Year in Environment Award.

Summit Environmental Contractors is a trusted partner amongst infrastructure construction leaders to provide sustainable green methods towards the modernization of California's transportation system. From start to finish, Summit has the capabilities to complete projects that create healthier and safer environments for our families.
